

## Certificate of analysis

|                    |                             |
|--------------------|-----------------------------|
| <b>Date:</b>       | 06/16/2026                  |
| <b>Product:</b>    | <i>Monilinia fructigena</i> |
| <b>Catalog No:</b> | Oneq-A631-150D              |
| <b>Lot No:</b>     | Oneq-A631-150D160626        |

### Storage Conditions:

All *Monilinia fructigena* PCR detection kit reagents are shipped ambiently.  
Expiration date is 06-16-2028. *Monilinia fructigena* PCR detection kit reagents are stable at room temperature.

### Specifications:

|                                     |                              |
|-------------------------------------|------------------------------|
| Reagents: Universal qPCR Master Mix | Cat No: Oneq-A631-150D       |
| Qty: 1500 µL                        | Lot No: Oneq-A631-150D160626 |
|                                     | <b>Passed</b>                |

|                                                             |                              |
|-------------------------------------------------------------|------------------------------|
| Reagents: Primer, Probes and Internal Control Universal Mix | Cat No: Oneq-A631-150D       |
| Qty: 108 µL                                                 | Lot No: Oneq-A631-150D160626 |
|                                                             | <b>Passed</b>                |

|                            |                              |
|----------------------------|------------------------------|
| Reagents: Positive Control | Cat No: Oneq-A631-150D       |
| Qty: 120 µL                | Lot No: Oneq-A631-150D160626 |
|                            | <b>Passed</b>                |

|                            |                              |
|----------------------------|------------------------------|
| Reagents: Negative Control | Cat No: Oneq-A631-150D       |
| Qty: 450 µL                | Lot No: Oneq-A631-150D160626 |
|                            | <b>Passed</b>                |

|                                   |                              |
|-----------------------------------|------------------------------|
| Reagents: PCR grade Water Control | Cat No: Oneq-A631-150D       |
| Qty: 1500 µL                      | Lot No: Oneq-A631-150D160626 |
|                                   | <b>Passed</b>                |

### Reagent Performance

All reagents are stable at room temperature. All new lots of reagents are tested with the kit. In order to pass quality control tests the reagents must yield within 10% of the DNA of the previously passed lots.

### Conclusions:

This lot of *Monilinia fructigena* PCR detection kit are released for product sales.
