SECTION 1: Identification of the substance/mixture and of the company/undertaking

Identification of the substance or mixture

Product name: Universal gPCR Master Mix Kit Name: Classical swine fever virus

Company/undertaking identification

Manufacturer/Supplier: Bioingentech Ltd. Address: Bernardo O'Higgins 1213. Concepción, Chile. Phone: (56)-41-2790435

SECTION 2: Hazards identification

HMIS GHS - Classification Principle Routes of Exposure Specific effects Carcinogenic effects Signal Word None **Potential Health Effects** None. Health Health hazards Not classified eyes: May cause eye irritation with susceptible persons. **Mutagenic effects** None. **Flammability** Physical hazards Not classified Skin: May cause skin irritation in susceptible persons. Reproductive toxicity None. Reactivity **Inhalation:** May be harmful by inhalation. Hazard Statements Not Applicable Sensitization None.

Ingestion: May be harmful if swallowed. **Target Organ Effects** Precautionary Not Applicable None under normal **Statements** use conditions.

SECTION 3: Composition/information on ingredients

| Component | CAS-No | EINECS-No | Weight % |
|----------------------------|---------|-----------|----------|
| Glycerol 56-81-5 (10-30) | 56-81-5 | 200-289-5 | 10-30 |

The product contains no substances which at their given concentration, are considered to be hazardous to health.

SECTION 4: First aid measures

Skin contact Rinse cautiously with water for several minutes. If symptoms occur, obtain medical advice.

Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. If symptoms persist, call a physician. Eye contact

Never give anything by mouth to an unconscious person. If symptoms persist, call a physician. Do not induce vomiting without medical advice. Ingestion

inhalation Remove to fresh air. If symptoms persist, call a physician. If not breathing, give artificial respiration.

Most important symptoms and effects, both acute and delayed Not Applicable

Notes to Physician Treat symptomatically.

SECTION 5: Firefighting measures

Water spray. Carbon dioxide (CO2). Foam. Dry chemical. Suitable extinguishing media Special protective equipment for firefighters Wear self-contained breathing apparatus and protective suit.

Specific hazards arising from the chemical Not known

SECTION 6: Accidental release measures

Environmental precautions Use personal protection equipment. Prevent further leakage or spillage if safe to do so.

Personal precautions Methods for cleaning up Soak up with inert absorbent material. See Section 12 for more information.

SECTION 7: Handling and storage

Always wear reccommended Personal Protective Equipment. No special handling advices are necessary. Handling

Keep in a dry, cool and well-ventilated place. Storage

SECTION 8: Exposure controls/personal protection

Exposure Limits

| Chemical Name | OSHA PEL | OSHA PEL (Ceiling) | ACGIH OEL (TWA) | ACGIH OEL (STEL) |
|---------------|---|--------------------|-----------------|------------------|
| Glycerol | 15 mg/m ³ 5 mg/m ³ | None | None | None |

Engineering measures Ensure adequate ventilation, especially in confined areas.

Personal Protective Equipment Personal Protective Equipment requirements are dependent on the user institution's risk assessment and are specific to

the risk assessment for each laboratory where this material may be used.

In case of insufficient ventilation, wear suitable Respiratory protection Skin and Body Protection Lightweight protective clothing.

Hygiene measures

Dailing paint / hailing range

respiratory equipment. Handle in accordance with good industrial Hand protection Impervious gloves. hygiene and safety practice.

Eye protection Wear safety glasses with side shields (or goggles).

Environmental exposure controls No special environmental precautions required.

SECTION 9: Physical and chemical properties

General information

| FORIII | Liquid | Boiling point / boiling range | C > 100 | Γ / 212 |
|----------------|--------------------------|-------------------------------|----------------------|----------------------|
| Appearance | No information available | Melting point / melting range | °C >0 | °F >32 |
| Odor | No data available | flash point | °C >90 | °F >160 |
| Odor Threshold | No data available | Autoignition Temperature | °C No data available | °F No data available |

Evaporation rate No data available Partition coefficient No data available n-octanol/water

Flammability (solid, gas) No data available

Oxidizing properties No information available Vapor Pressure No data available Water solubility soluble No data available soluble vapor density Upper explosion limit No data available Viscosity No data available

Lower explosion limit No data available pH value 6-8

SECTION 10: Stability and reactivity

Stability Stable under normal conditions. Hazardous decomposition Carbon oxides.

Materials to avoid Strong acids and oxidizing agents. products

Acetic anhydride. Isocyanates. Ammonia. Bases. polymerization Hazardous polymerization does not occur.

Hazardous reaction has not been reported Conditions to avoid None under normal processing. Possibility of hazardous reactions

SECTION 11: Toxicological information

Acute Toxicity

| Chemical Name | LD50 (oral,rat/mouse) | LD50 (dermal,rat/rabbit) | LC50 (inhalation,rat/mouse) |
|---------------|-----------------------|--------------------------|-----------------------------|
| Glycerol | = 12600 mg/kg Oral | No data available | >570mg/m³ (Rat) |

Principle Routes of Exposure Potential Health Effects

May cause eye irritation with susceptible persons. **Mutagenic effects** None. May cause skin irritation in susceptible persons. Reproductive toxicity Skin None. Inhalation May be harmful by inhalation. Sensitization None.

Ingestion May be harmful if swallowed. **Target Organ Effects** None under normal use conditions

Carcinogenic effects None.

SECTION 12: Ecological information

Ecotoxicity Contains no substances known to be hazardous Chronic aquatic toxicity Not classified chronic.

EC50>500 mg/L (24h)

to the environment or not degradable in waste Log Pow. Mobility

water treatment plants. Biodegradation Inherently biodegradable. Acute aquatic toxicity Not classified for acute. Bioaccumulation Material does not bioaccumulate.

Chemical Name Freshwater Algae Data Water Flea Data Freshwater Fish Species Data Microtox Data log Pow Glycerol Daphnia magna logPow-1.76

SECTION 13: Disposal considerations

Dispose of contents/containers in accordance with local regulations.

SECTION 14: Transport information

IATA

Proper Shipping Name No dangerous good in sense of these transport regulations Packing group None **Hazard Class** UN-No None Subsidiary class None **Environmental hazards** None

Environmental exposure controls No special environmental precautions required.

SECTION 9: Physical and chemical properties

General information

| Form | Liquia | Boiling point / boiling range | °C >100 | °F >212 |
|----------------|--------------------------|-------------------------------|----------------------|----------------------|
| Appearance | No information available | Melting point / melting range | °C >0 | °F >32 |
| Odor | No data available | flash point | °C >90 | °F >160 |
| Odor Threshold | No data available | Autoignition Temperature | °C No data available | °F No data available |

Evaporation rate No data available **Partition coefficient** No data available

Flammability (solid, gas) No data available n-octanol/water

Oxidizing propertiesNo information availableVapor PressureNo data availableWater solubility solublesolublevapor densityNo data availableUpper explosion limitNo data availableViscosityNo data available

Lower explosion limit No data available pH value 6-8

SECTION 10: Stability and reactivity

Stability Stable under normal conditions. Hazardous decomposition Carbon oxides.

Materials to avoid Strong acids and oxidizing agents. products

Acetic anhydride. Isocyanates. Ammonia. Bases. **polymerization** Hazardous polymerization does not occur.

Possibility of hazardous reactions Hazardous reaction has not been reported Conditions to avoid None under normal processing.

SECTION 11: Toxicological information

Acute Toxicity

| Chemical Name | LD50 (oral,rat/mouse) | LD50 (dermal,rat/rabbit) | LC50 (inhalation,rat/mouse) |
|---------------|-----------------------|--------------------------|-----------------------------|
| Glycerol | = 12600 mg/kg Oral | No data available | >570mg/m³ (Rat) |

Principle Routes of Exposure Potential Health Effects

eyesMay cause eye irritation with susceptible persons.Mutagenic effectsNone.SkinMay cause skin irritation in susceptible persons.Reproductive toxicityNone.InhalationMay be harmful by inhalation.SensitizationNone.

Ingestion May be harmful if swallowed. Target Organ Effects None under normal use conditions

Carcinogenic effects None.

SECTION 12: Ecological information

Ecotoxicity Contains no substances known to be hazardous Chronic aquatic toxicity Not classified chronic.

to the environment or not degradable in waste **Mobility** Log Pow.

water treatment plants. Biodegradation Inherently biodegradable.

Acute aquatic toxicity Not classified for acute. Bioaccumulation Material does not bioaccumulate.

Chemical Name Freshwater Algae Data Water Flea Data Freshwater Fish Species Data Microtox Data log Pow

Glycerol Daphnia magna
EC50>500 mg/L (24h) logPow-1.76

SECTION 13: Disposal considerations

Dispose of contents/containers in accordance with local regulations.

SECTION 15: Regulatory information

| Component | US TSCA | US Federal F |
|----------------------------|---------|-----------------------------|
| Glycerol 56-81-5 (10-30) | Listed | SARA 313 This product is no |

US State Regulations

California Proposition 65

This product does not contain any Proposition 65 chemicals.

US Federal Regulations

This product is not regulated by SARA.

Clean Air Act, Section 112 Hazardous Air Pollutants (HAPs) (see 40 CFR 61)

This product does not contains HAPs.

WHMIS Hazard Class

Non-controlled

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the MSDS contains all the information required by the CPR.

SECTION 16: Other information

Reason for revision SDS sections updated.

For research use only. Not intended for human or animal diagnostic or therapeutic uses.

"The above information was acquired by diligent search and/or investigation and the recommendations are based on prudent application of professional judgment. The information shall not be taken as being all inclusive and is to be used only as a guide. All materials and mixtures may present unknown hazards and should be used with caution. Since the Company cannot control the actual methods, volumes, or conditions of use, the Company shall not be held liable for any damages or losses resulting from the handling or from contact with the product as described herein. THE INFORMATION IN THIS SDS DOES NOT CONSTITUTE A WARRENTY, EXPRESSED OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PUPOSE"

HMIS

SECTION 1: Identification of the substance/mixture and of the company/undertaking

Identification of the substance or mixture

Product name: PCR grade Water

Kit Name: Classical swine fever virus

Company/undertaking identification

Manufacturer/Supplier: Bioingentech Ltd. Address: Bernardo O'Higgins 1213. Concepción, Chile. Phone: (56)-41-2790435

SECTION 2: Hazards identification

GHS - Classification Principle Routes of Exposure Specific effects
Signal Word None Potential Health Effects Carcinogenic effects None.

Health 0 Health hazards Not classified eyes: May cause eye irritation with susceptible persons. **Mutagenic effects Flammability** 0 None Physical hazards Not classified Skin: May cause skin irritation in susceptible persons. Reproductive toxicity Reactivity 0 None.

Hazard Statements Not Applicable Inhalation: May be harmful by inhalation. Sensitization None.

PrecautionaryNot ApplicableIngestion:May be harmful if swallowed.Target Organ EffectsNone under normal use conditions.Statements

SECTION 3: Composition/information on ingredients

| Component | CAS-No | EINECS-No | Weight % |
|----------------------------|---------|-----------|----------|
| Glycerol 56-81-5 (10-30) | 56-81-5 | 200-289-5 | 1 0-30 |

The product contains no substances which at their given concentration, are considered to be hazardous to health.

SECTION 4: First aid measures

Skin contact Rinse cautiously with water for several minutes. If symptoms occur, obtain medical advice.

Eye contact Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. If symptoms persist, call a physician.

IngestionNever give anything by mouth to an unconscious person. If symptoms persist, call a physician. Do not induce vomiting without medical advice.

inhalation Remove to fresh air. If symptoms persist, call a physician. If not breathing, give artificial respiration.

Most important symptoms and effects, both acute and delayed Not Applicable

Notes to Physician Treat symptomatically.

SECTION 5: Firefighting measures

Suitable extinguishing media Water spray. Carbon dioxide (CO2). Foam. Dry chemical.

Special protective equipment for firefighters Wear self-contained breathing apparatus and protective suit.

Specific hazards arising from the chemical Not known

SECTION 6: Accidental release measures Environmental precautions

Personal precautions Use personal protection equipment. Prevent further leakage or spillage if safe to do so.

Methods for cleaning up Soak up with inert absorbent material. See Section 12 for more information.

SECTION 7: Handling and storage

Handling Always wear reccommended Personal Protective Equipment. No special handling advices are necessary.

Storage Keep in a dry, cool and well-ventilated place.

SECTION 8: Exposure controls/personal protection

Exposure Limits

| Chemical Name | OSHA PEL | OSHA PEL (Ceiling) | ACGIH OEL (TWA) | ACGIH OEL (STEL) |
|---------------|---|--------------------|-----------------|------------------|
| Glycerol | 15 mg/m ³ 5 mg/m ³ | None | None | None |

Engineering measures Ensure adequate ventilation, especially in confined areas.

Personal Protective Equipment Personal Protective Equipment requirements are dependent on the user institution's risk assessment and are specific to

the risk assessment for each laboratory where this material may be used.

Respiratory protection In case of insufficient ventilation, wear suitable Skin and Body Protection Lightweight protective clothing.

respiratory equipment. Hygiene measures Handle in accordance with good industrial

Hand protection Impervious gloves. Hand protection Impervious gloves.

Eye protection Wear safety glasses with side shields (or goggles).

Environmental exposure controls No special environmental precautions required.

SECTION 9: Physical and chemical properties

General information

| Form | Liquid | Boiling point / boiling range | C >100 | F >212 |
